

CONDITION IS VERY CRITICAL.

THE PRESIDENT'S HEART FAILS GRAVEST FEARS ENTERTAINED FOR MR. M'KINLEY'S RECOVERY.

Heroic Measures Taken by Doctors to Save Patient's Life.

Latest Bulletin Gives Great Hope of the President's Recovery.

Physicians in an Official Statement Say His Condition Justifies The Expectation of Further Improvement--Pulse 123, Temperature 99.4--Special Train Carrying Cabinet Officers and Friends to Buffalo.

BUFFALO, Sept. 13.—THE FOLLOWING OFFICIAL BULLETIN DATED 2:30 THIS AFTERNOON HAS JUST BEEN ISSUED BY THE PRESIDENT'S PHYSICIANS: "THE PRESIDENT HAS MORE THAN HELD HIS OWN SINCE MORNING AND HIS CONDITION JUSTIFIES THE EXPECTATION OF FURTHER IMPROVEMENT. HE IS BETTER THAN YESTERDAY AT THIS TIME. PULSE 123; TEMPERATURE 99.4."

BUFFALO, Sept. 13.—Shortly before 2 o'clock this afternoon Dr. Stockton and Dr. Mann arrived at the Milburn house and it is believed a consultation is being held. At 2:02 Dr. Stockton hurried from the house, and gave instructions to an automobile chauffeur to take him to Dr. Mann's house. Dr. Stockton would say simply that he would return in a few minutes. His mission is unknown.

BUFFALO, Sept. 13.—An official bulletin dated 12:30 p. m. and issued at one o'clock this afternoon says: "The President's physicians report that his condition is practically unchanged since the 9 o'clock bulletin. He is sleeping quietly. Signed by George B. Cortelyou, Secretary."

At 12:31 Secretary Cortelyou said: "The reason no pulse or temperature is given in the last bulletin is because the President is asleep and the physicians do not want to disturb him. Some weak nourishment was given to the President, but it is not true that clam broth was given him."

Mr. Cortelyou will personally issue bulletins every two hours until further notice.

BUFFALO, Sept. 13.—When Governor Yates of Illinois, left the Milburn house at 11:35 a. m. He said: "The surgeons and Mr. Milburn informed me that there is a slight improvement in the President's condition though not sufficient to remove the grave apprehension entertained. The fact that he is no lower indicates in itself improvement, and is the cause of intense gratification. The people in the house are cheerful and the gloom which pervaded the watchers during the early morning is somewhat disappearing."

BUFFALO, Sept. 13.—Dr. W. W. Johnson, of Washington, and Dr. Eugene Janeway, of New York, two of the greatest specialists in the country, will arrive tonight to advise with the President's physicians.

BUFFALO, Sept. 13.—At 10:15 this morning Senator Hanna sent word to the physicians, demanding the truth. Dr. Rixey said: "The President is stronger than he was an hour ago. We have discontinued the oxygen and salt solution. He has a good fighting chance but for his heart, and God only knows what it will do."

BUFFALO, Sept. 13.—President McKinley realizes his condition. At a time when the surgeons imagined him to be asleep about 9:30 o'clock Dr. Mynter gave the patient a hypodermic injection of strychnine. The President was conscious and asked feebly: "What is that, Doctor?"

"A heart stimulant," was the reply.

"Is the necessity great?" asked the President.

"Yes, your Excellency," answered the Doctor. "You are a brave man and a very sick man."

"I realize it," said the President, resignedly but cheerfully.

Buffalo, Sept. 13.—At 9:40 this morning Dr. Mann left the Milburn house, saying that the President was slightly better than in the early morning hours, but that he is still in a very critical condition.

Buffalo, Sept. 13.—Dr. Mann informed callers this morning that if the President survived the day there would be cause for renewed hope. They are giving him oxygen. The patient was, however, he says, in a state of collapse, although his heart action was slightly strengthened.

No little excitement was caused among the newspaper men at 9:30 when Rev. Arthur O. Sykes, a clergyman, entered the Milburn residence. It was thought the President's condition had become hopeless and that the clergyman had been sent for. Mr. Sykes, however, came to the house bearing resolutions of sympathy from the City of Portsmouth, Va.

This morning the doctors prevented Mrs. McKinley from going to the Pres-

SURGEONS AND PHYSICIANS WHO HAVE ATTENDED THE PRESIDENT.

The surgeons and physicians who have been attending President McKinley are among the foremost in their profession. Dr. Roswell Park is chief surgeon of the Buffalo General hospital, professor in the University of Buffalo and author of a standard work on surgery. Dr. Presley M. Rixey is a medical inspector in the navy and the President's family physician. Dr. Matthew D. Mann is a professor in the University of Buffalo and is author of a standard medical work. Dr. Herman Mynter is a surgeon of the German hospital, Buffalo, and a specialist on appendicitis. Dr. John Parmenter is professor of anatomy in the University of Buffalo. Dr. Charles McBurney is one of the most eminent surgeons in New York City. For twenty years he was connected with the New York College of Physicians and Surgeons, but several years ago retired because of a large private practice. He is now consulting surgeon of several big New York hospitals.

Members of the cabinet, doctors and nurses were called. Vice President Roosevelt was telegraphed for. Senator Hanna and President McKinley's sister left Cleveland on a special train for Buffalo.

Buffalo, Sept. 13.—At 7 a. m. the President had rallied somewhat. The heart is active, but still unsatisfactory. The doctors are hopeful.

Cleveland, O., Sept. 13.—A Buffalo special to the Cleveland Press, not official, says at 8 a. m.: "The President is dying. Be ready for the death bulletin. Rally at 7:20 gives no encouragement."

STILL HOPING.
Cleveland, O., Sept. 13.—A Buffalo, N. Y., dispatch special to the Cleveland Press says:

At 11:45 Dr. McBurney wired from Stockbridge, Mass., that he had started for Buffalo. Governor Yates and staff called at the Milburn house. Yates said Hanna insisted that the President would recover. Secretary Hitchcock said at 12:05: "He's still alive; as long as he is, we will hope."

BARE FIGHTING CHANCE.
Cleveland, O., Sept. 13.—A Buffalo special to the Cleveland Press says:

At 9:20, Major T. W. Symmons, U. S. army, said: "While the President has rallied somewhat the doctors say he has only a bare fighting chance."

CANTON GREATLY EXERCISED.
Canton, O., Sept. 13.—Canton is greatly exercised over the news of the sinking condition of the President. Mrs. Barber and her son, John D. Barber, left here this morning to hasten to the side of her sister, Mrs. McKin-

ley. Colonel Taylor, of East Liverpool, a strong personal friend of the President and who recently visited the McKinleys here, has been sent a telegram by Secretary Cortelyou, asking him to come to Buffalo.

STOCK SLUMPED TODAY.
New York, Sept. 13.—Stock slumped here on the opening from one to six points on the news of the President's condition and there was also great excitement on the London stock exchange when the news became known.

THE NEWS IN LONDON.
London, Sept. 13.—The American embassy, filled with excited crowd asking for news of McKinley. This evening's papers commenting on McKinley express universal anxiety and respect.

CONDITIONS THIS NOON.
Buffalo, N. Y., Sept. 13.—Dr. Stockton, Wm. C. Warren, and Daniel M. Lockwood left the Milburn residence at 11:55. Dr. Stockton said that the President is steadily improving. Dr. Stockton added: "The President is perfectly conscious. Mr. Warren said he saw Mrs. McKinley and that she seemed to be quite well."

WILL HEAR THE TRUTH.
Buffalo, N. Y., Sept. 13.—Abner McKinley, brother of the President, was seen at the Lenox in morning, a few minutes before 8 o'clock, but begged to be excused from talking of the President's condition.

"What is the condition of the President and why did the doctors send an unfavorable bulletin?" was the question asked.

"I have nothing to say except that," Dr. Mynter says that the President's

Torrence New Commander in Chief.

CLEVELAND, Sept. 13.—Eli Torrence, of Minnesota, was today elected Commander-in-Chief of the G. A. R. General Sickles, of New York, withdrew. Stewart of Pennsylvania, remained in the race, but Sickles' support going to Torrence, won the day for him.

The vote for G. A. R. Commander-in-Chief on the first ballot stood 230 for Stewart and 476 for Torrence. The election of Torrence was then made unanimous.

EXPLORER PERRY AND PARTY FAILED TO REACH THE NORTH POLE

But Their Work is of Vast Scientific Importance--The Steamer Erik Returned to Sydney This Morning--All in the Party Are Well.

Halifax, N. S., Sept. 13.—The steamer Erik which sailed from Sydney on July 14 last for the north to search for Explorer Perry and his wife, returned to Sydney this morning. Perry succeeded in penetrating as far as 82.50 north. The Erik was found windward safe at Etah. Perry was left at Cape Sabir. The only mishap the Erik met with was loss of an anchor at Alexander sound. The relief expedition brought back some 250 walrus heads and a number of kayaks and other curiosities. All members of the expedition are well. Perry failed to reach the North Pole but his party is well and their work is of vast scientific importance. Perry reached the farthest point north ever attained in the western hemisphere, 83 degrees, 50 minutes. He will try for the north pole again next spring.

Asked to Take Howison's Place.

WASHINGTON, Sept. 13.—Rear Admiral John Miller, retired, of Springfield, Ohio, has been asked to take Howison's place on the Schley inquiry board.

heart is affected. At the present he is highly stimulated with saline, oxygen, etc. He shows a slight improvement over the condition of this morning. The improvement is so slight, however that there is practically no material change. However, Dr. Mynter says that the President is not absolutely hopeless.

Train Broke All Records.
Cleveland, O., Sept. 13.—The Hanna special train arrived at Buffalo after a run that broke all records. Erie ninety-five and one-half miles from Cleveland, was reached in 91 minutes.

Senator Hanna as soon as he received the message telling of the President's condition, hired a special train from Cleveland which made a record-breaking run in a trifle over three hours. They were met at the station by Detective Ireland, with an automobile with which they were sent to the Milburn home at top speed, arriving at 10 o'clock. The Senator was dressed in his customary gray suit and gray fedora hat. He was very lame and was assisted from the automobile by Detective Ireland.

At 10:02 Mrs. Duncan and Mrs. Barber, the President's sisters, and Miss Barber reached the Milburn house. They were followed shortly by Senator Fairbanks of Indiana, and Judge W. R. Day. It now looks as though all the President's relatives had been summoned from Canton and Cleveland.

THE NEWS AT WASHINGTON.
Washington, Sept. 13.—The alarming news from Buffalo came as a great shock to the night force of the White House. Assistant Secretaries Prudden and Barnes and Colonel Montgomery, chief of the telegraph force, were hastily summoned from their homes and they in turn dispatched messengers to the members of the cabinet who are in town and to a few of the President's personal friends. Secretary of State Hay and Comptroller of Currency Daws, as one hurried to the White House and remained until dawn. Secretary of the Treasury Gage and Assistant Secretary Alden visited the White House about 4 o'clock and then went over to the treasury building where they got such rest as they could on lounge in their offices.

At first Secretary Gage, thought it best to hasten to Buffalo by the morning train, but afterwards he changed his mind.

"My duty is to be at my post," he said. "I have been on the 7:30 a. m. train to Buffalo."

MISS GOLDMAN'S ADMISSION.
Chicago, Ill., Sept. 13.—Emma Goldman admitted this morning that she knew Dr. Sayler, the Buffalo physician and her arrest here, but only in a professional way. She declares that far as she knows he is not an anarchist and is not even a sympathizer.

LONG IN BOSTON.
Boston, Sept. 13.—Secretary of the Navy Long this morning received a special telegram from Buffalo signed Cortelyou. He telephoned at once to the Boston rail road offices and by prompt work a special train over the Boston and Maine took him out of

Secretary of War Elihu Root was at his home here when the news of the President's alarming condition reached him. He at once prepared to return to Buffalo. Secretary Root left for Buffalo at 8:25.

IN LONDON.
The News Announcing Change for the Worse Created Great Excitement. Papers' Comment.

London, Sept. 13.—The news of President McKinley's relapse became known here a little after 8 o'clock this morning and it came as a great shock to all circles.

Special editions of all the papers were rushed on the streets announcing the news.

George L. Wellington is the name of the senator from Maryland whose term will expire with the present congress and whose seat Arthur Pue Gorman is trying to capture. He was elected as a Republican, but he had a quarrel with the administration and lost his share of the control of the federal patronage in Maryland. Hence he remarked in an interview on the subject of the attempted assassination: "McKinley and I are enemies. I have nothing good to say about him, and, under the circumstances, do not care to say anything bad. I am indifferent to the whole matter." No enemy of the government could have made a remark in worse taste and spirit. A movement to expel Mr. Wellington from the senate would not, perhaps, be vigorously opposed by anybody. If he should be expelled Senator Gorman would be appointed to fill the vacancy.

The fact that the navy department is practically dominated by a small coterie of bureaucrats who, through social and political influence, have managed to control the secretary is likely to cost the people a large sum of money in the matter of the expense which the Schley inquiry will involve. It is estimated that not less than \$700 a day will be required to keep this tribunal running. Adding to the financial expense the cost in public scandal and the humiliation of deserving officers which the existence of this cabal has involved, it will be seen that the people are likely to pay very dearly for the existence of a nest of favorites which ought to have been broken up long ago.

Merely What He Thinks.
(St. Louis Post-Dispatch.)
Senator Hoar looks with grave apprehension upon the building up of any power in this country which shall be able to destroy a salutary and healthy competition. But how will he vote?

PROTECTION OF PRESIDENTS.

(Pittsburg Post.)

One suggestion made by every one who writes or talks on the subject, is that a stop should be put to the reckless and useless custom of shaking hands with the multitude. Aside from the opportunities this presents for acts of personal violence it is a fact that it is wearing on the strength of the President, and he needs all his strength for far more important business. In stopping it he may curtail his danger from cranks, lunatics and anarchists. Sensible people all discredit the hand-shaking business as a useless and idle formality, meaning nothing and imposing absolute hardships. Some of our public men have broken down under the fatigue that attends it.

There are also good reasons why the secret service attendance on the President should be more vigilant and thorough. It was non-effective at Buffalo, and in the case of Garfield, simply because it was the unexpected and unlooked-for that happened. That is precisely what the detectives should be on their guard against. During Mr. Cleveland's administration the plan of the army officer who had charge of the Government buildings in the White House grounds to maintain a guard was entirely proper. But although

Might Effect a Cure.

(Boston Herald.)
Perhaps all governments may unite to establish an island colony where those who hold and promulgate the doctrine of anarchy can be compelled to go and live together as best they may, not as felons, but as persons afflicted with a peculiar insanity. Experience in governing themselves might work a cure.

A Guard for the President.

(Kansas City Times.)
The President of the United States should be guarded at all times. There is no need for a military display, but a secret police system should be established and a cordon of officers thrown about the President.

MEMORIAL.

Whereas, The Great Ruler of the universe, in his infinite wisdom, removed from our midst our worthy and esteemed brother George W. Henry, and

Whereas, The intimate relations between him and this "Home" have always been of such a character that he was beloved by all, and respected for his integrity as a man; therefore be it Resolved, By Newark Home No. 34, Home Guards of America, that while we bow in humble submission to an all-wise Creator, we do most sincerely mourn the loss of a brother. High or low, great or small, all must meet on a common level, all must submit to the dominion of death. How important that we should be prepared to meet our end in peace. We live on this stage of action but a few short years at most, with all its lights and shadows; we fall by the wayside and are known no more. It is a sweet legacy of life to leave behind us an honored memory.

George W. Henry possessed to a rare degree the attributes that cement friendship between men, and in his death we have lost a brother who was faithful and true, fraternal in his daily life and zealous in his undertakings.

In remembrance of his many admirable qualities, it is by this Home Resolved, That in the death of our beloved brother we have lost a friend and companion, and while realizing the impotency of words, we offer to his sorrowing family our deepest sympathy and in evidence of our respect for his memory be it

Resolved, That we drape our charter in mourning for a period of thirty days, and be it further Resolved, That a copy of these resolutions be spread on the minutes of this Home, a copy presented to the bereaved family, and to the Home Guard Monitor, and the city daily papers for publication.

The embassy is filled with excited crowds. The news caused a practical suspension of business in the stock exchange. The market is naturally unstrung.

At the Ecumenical Methodist conference the bad news regarding the President was received with great emotion. All standing orders were suspended and after an impressive period of prayer the conference was adjourned.

The evening papers, commenting on the relapse of the President express universal anxiety. The Pall Mall Gazette says: "The whole Anglo-Saxon race is kneeling at the President's bedside clinging to hope, as long as hope exists."

DEPOSITIONS TAKEN.

The depositions of Helen S. Munro and Mary F. Munro of Granville, were taken today, in cases pending in the Superior Court of Cook county, Ill., brought by the above named ladies as plaintiffs vs. George W. Cass, an attorney of Chicago. The actions are brought to recover money loaned. Judge Chas. H. Kibler represents the plaintiffs. The depositions were taken by C. C. Cooper.

HEART ACTION BETTER.

Buffalo, Sept. 13.—At noon Dr. Wasdin came out of the Milburn house and said: "There is no appreciable change in the President's condition beyond the fact that his heart action is slightly stronger." Dr. Wasdin said an official bulletin would be issued at 2 o'clock, a consultation having been called for 1 o'clock this afternoon.

SORROW AT HAVANA.

Havana, Sept. 13.—La Discusion, in an extra edition this morning, printed a special from Buffalo announcing the serious condition of President McKinley. The news caused universal excitement and grief.

Chicago, Sept. 13.—Fearing violence to the nine anarchists seeking release by habeas corpus proceedings, it was decided by Judge Chelstains this morning not to have a hearing in the county building but to remove prisoners from the jail to one of the criminal court rooms. They are safe now. An immense crowd was on hand to see the anarchists and the feeling is intense. Ex-Assistant Prosecuting Attorney Robinson harangued the crowd and offered to lead the mob against the prisoners. The crowd finally dispersed by the efforts of the police.

Admiral Howison Disqualified.

Washington, Sept. 13.—Within three hours from the time of convening the Schley court of inquiry it was announced that Rear Admiral Howison was disqualified from serving as a member of the court, and was excused from further duty. This brought proceedings to an abrupt termination and caused a temporary adjournment of the court in order to permit the navy department to designate an officer to succeed Admiral Howison. When the decision was announced there was a buzz of animated comment and Admiral Schley exchanged looks of satisfaction with his counsel. Admiral Dewey then at once closed the proceedings of the day by announcing that the court would indefinitely until the navy department had named an officer to succeed Admiral Howison. No further session of the court is probable until the early part of next week. The point scored against Admiral Howison was that in general private conversations he commented adversely on Schley.

Cures Create Confidence!

And Have Made My Practice Larger Than That of Any Other Specialist.

The vast number of people who have taken my treatment have not been disappointed. They know that I do not promise more than I perform. To them I have actually illustrated in the cure of their own cases, the truth of what I claim, that my treatment for CATARRH and DISEASES of the Ear, Nose, Throat and Lungs and CHRONIC, OBSCURE, BLOOD and NERVOUS DISEASES is as certain to cure as it is that the patient engages my services and follows my directions.

Catarrh of the Head, Nose and Throat Absolutely Cured,

And the poisons of the disease completely eliminated from the system by the New and Better Treatment administered by Dr. Scheib. No Injurious Medication, no PAINFUL OPERATIVE TREATMENT, no Acid Sprays, no Caustic Burnings, no Experimenting.

Deafness, all forms of Catarrh, Asthma, successfully treated.

79 NORTH THIRD ST, Newark, O.

J. P. SCHEIB, M. D.

My success is due not alone to education, experience, skill and scientific equipment, but to the fact that I limit my study and practice strictly to the above.

Do not be misled by PRETENDERS, who, easily and painlessly to a normal who only aggravate your trouble and state and therewith promote every possibly place you in a condition that function of mind and body to its full usefulness and relieve you of all embarrassment. With such assurances of the merits of my treatment, I want you to call and see me. If your case is curable you will be kindly and frankly told so.

SPECIAL FALL OFFER \$3.00 FOR 4 WEEKS TREATMENT!

This applies to Diseases of the Ear, Nose, Throat and Lungs only. This offer applies to all New Patients and such who have discontinued for various causes who call before SEPTEMBER 21.

POSITIVELY THE LAST SPECIAL OFFER.

I accept No Incurable Cases. Consultation and Expert Examination Free. I am Here to Stay. Office 79 N. Third Street, Newark, O. Hours 9 to 12, 1 to 5, 7 to 8 p. m.

RECORD BREAKER

FASTEST TIME EVER MADE, ON THE B. & O.

Seventy-Four Miles an Hour From Mansfield to Shelby—The Officials on Board.

The special train bearing the B. & O. inspection party, consisting of Assistant General Manager Hale, Assistant General Superintendent Campbell, Superintendent English of the Trans-Ohio Divisions, Trainmaster Cook, Division Engineer Vadakin, Superintendent Schultz and a number of the other officials of the Baltimore & Ohio railroad, left here on Tuesday morning for a trip over the Lake Erie and Chicago divisions. The train was drawn by engine 745, H. C. Johns, engineer, J. W. Wilson fireman, and John Idle conductor. The train consisted of two cars, Nos. 705 and 714, and the run from Newark to Sandusky, a distance of 116 miles, was a record-breaker. Being the fastest time ever made on the Baltimore & Ohio railroad. Mr. J. W. Green, secretary to Assistant General Manager Hale, kept a record of the time made during a portion of the trip and has furnished Engineer Johns with the following statement:

Newark, O., Sept. 13, 1901. Mr. H. C. Johns, Newark, O. Dear Sir:—There was no record kept of the run made from Newark to Sandusky, but your high runs were as follows:

Mansfield to Shelby, 74 miles per hour; Shelby to Chicago Junction, 63 miles per hour; Chicago to Monroeville was made in 14 minutes, or at the rate of 71 miles per hour; from Monroeville to Sandusky you made as high as 70 miles per hour.

I am sorry no official record was kept of this run. I might also say that you made the run from Chicago Junction to Sandusky, a distance of 28 miles in 28 minutes, including three stops, which is all that could be desired. Deducting stops, the time from Newark to Chicago Junction was made in about two hours. These figures, you understand, are not actual, but are made from memory. All on board were perfectly satisfied with the run.

J. W. GREEN, Secretary. Engine 745, which made this fast run, has been on the accommodation train, running between Cambridge and Wheeling. Engineer C. C. Cummings and Fireman S. L. Couson. Engineer Cummings has the engine in first-class condition, and Engineer Johns says that she is a daisy. The officials on

board the special were so pleased with the engine that they took her on through to Chicago on the Chicago division.

FRANKLIN TOWNSHIP. Corn cutting has commenced and is quite a job, the storm of two weeks ago having blown the corn down badly, making it difficult to cut.

Four new corn binders are being tried this week, Wm. Motherspaw, Harvey Cooper, J. M. Dushimer and G. W. Beall each having secured one.

Among those who attended the State Fair were F. H. Ballou and family, Mr. and Mrs. F. C. Osburn, Messrs. Hunter, Mr. and Mrs. O. E. Cooper, Mrs. Sarah Cooper, J. M. Dushimer, Mr. and Mrs. D. E. Dushimer, S. J. Farr, Mr. and Mrs. Homer Cooper, F. H. Wilkin, Wm. Motherspaw, S. I. Dushimer, Miss Anna Moore.

The school board held a special meeting Wednesday to select a teacher for the Sigler district.

Rev. E. L. Spaid who has been sick for three weeks expects to be able to fill his appointment next Sunday.

SOCIETY GIRL WEBS.

Toledo, Ohio, Sept. 13.—Toledo people have just heard of the marriage of Miss Nellie Goodwin, one of the most distinguished society musical artists in the city. She has had a studio in the Doyle building, while her husband is a conductor on the street railway of this city. It seems that Miss Goodwin, who lives in a swell suburb, has been riding down town on the car of which Conductor Edward M. McGulgan is in charge. These times continued for about six months, until one day Conductor McGulgan announced to his friends that he was about to be married. They are married now and are living happily at the home of the bride's mother on Scottwood avenue.

Steel Strike.

Pittsburg, Sept. 12.—President Saffler of the Amalgamated association, is making his last effort to settle the steel strike today. His executive board has advised this course. The terms sought are those of President Schwan which were, that the mills now on a strike and not open will be signed as union, the open mills will be considered non-union, and that employees are not to be discriminated against on account of the strike.

It is a curious fact that there are certain kind of noes which attract snakes. The whine of the mowing machine is one, and in six months as many as 120 cobras alone have been killed on a grass farm in India by getting in front of the advancing machine.

STATE NEWS

HAPPENINGS IN ALL PARTS OF OHIO.

All Sorts of Buckeye News Items Boiled So that Only Raw Facts Remain.

Fostoria.—At a special meeting of the Council a resolution was adopted notifying the City and Light Company to furnish gas to its patrons by noon Saturday or immediate steps would be taken to declare the franchise forfeited.

Delaware.—Charles Clark, aged 17, whose parents reside in this city, was found dead at the farm of Thomas Fulton. Clark had opened his window during the night, climbed out onto the roof of the porch, and in some way fallen off.

Toledo.—Lulu Hatfield, of Defiance, has sued for divorce, charging cruelty and neglect of duty. She secured a divorce in 1899 on the same ground and in August remarried her divorced husband.

St. Mary's.—Fred Bloomhurst, it is charged, attacked W. L. Smith a photographer, with a corn cutter. Smith escaped by running. Bloomhurst was bound over under a charge of assault with intent to kill.

Wapakoneta.—Rev. J. H. Culler, of the First English Lutheran church of this city, will deliver an address at the dedication of the Hamma Divinity Hall at Springfield, O.

Lima.—Hannah Gilmer in her plea for divorce from her husband Peter, alleges that he has been drunk nearly all the time of their married life, which began over 22 years ago.

Painesville.—Because of the many thefts of horses in this section this summer Mentor citizens have reorganized an old order of home guards and state police.

Nelsonville.—Ms. Samuel Stratton saved the lives of her two children, but will lose her own, from a runaway accident.

Akron.—George Miller assaulted and dangerously injured his son-in-law George North, in a quarrel over North's wife.

BIG GASSER.—The second well of the Licking Gas company (Newark's new supply) on Alf Liming's farm south of Highwater, came in Monday night, and is said to be the strongest gasser in the field. One of the drillers estimated its flow at three and a half millions of feet a day, but representatives of other companies dispute this. It is a good well, anyway, and insures the new company to be able to furnish gas.—Utica Herald.

RAILROADS.

Strike in the B. & O. Shops.

Washington, Ind., Sept. 13.—Although the 350 machinists in the Baltimore and Ohio Southwestern shops here decided not to join the strikers, yet many of the machinists called for their time and quit. Forty more laborers were imported from St. Louis, but only part of them went to work. Master Mechanic Hair said that he does not think there is danger of violence from the strikers, but the armed guards are necessary to protect the property from vandals who would take advantage of the trouble. He said the company means to win the strike, no matter what the cost.

Armed Men on Guard.

Washington, Ind., Sept. 13.—Armed sentinels are patrolling the Baltimore and Ohio Southwestern shops. The men are heavily armed with Winchester and revolvers and each guard is allotted a space of 100 feet over which he goes back and forth on the outlook for intruders. Other guards are stationed in the shops, preventing conversation between the employees save as to their work. Eleven officers have been imported from Chillicothe, O., to assist the deputy sheriffs, the 15 Pinkertons and the score of railroad detectives.

SILVER MEDAL CONTEST.

The Silver Medal Contest, which has been billed for the past two weeks, took place last Saturday evening at the Baptist church, before a large and attentive audience. All the contestants did well and deserve praise. The medal was awarded to Thomas Fisher formerly of Alexandria, but now employed in the Creamery at Newark. He was congratulated by his many friends for his success as an orator. It is to be hoped that this society may not end here, as such entertainments speak well for the community and a second contest in this line is desired by all who attended.—Alexandria Correspondent.

TREES BLOWN DOWN.—

There was quite a strong gale of wind two miles north of the city on Thursday night, which blew down three large apple-trees on the old Deacon Evans farm, and several other trees on the Griff Owens farm, across the road.

A good mirror tells the truth no matter on whom it reflects.

ZEUBLIN PLANS

For the Extension of the Public School System at Chicago—Known Well in Newark.

An interesting extension of the public school system is proposed by Professor Zeublin at Chicago, who is a grandson of Judge Charles Follett of this city. It is his desire that the \$22,000,000 invested in school buildings shall yield some returns to adults as well as children. He sets forth that the schools be absolutely vacant much of the time when they might be used for lectures, entertainments and social gatherings of various kinds. By throwing open the school rooms after business and working hours, not only a congenial meeting place would be afforded for neighbors in search of amusement and social recreation, but opportunity would be given for the delivery of free lectures on economical questions, on art, music and other subjects whose discussion would tend to a wider and higher culture.

Professor Zeublin's plans also contemplate the establishment of gymnasiums and auditoriums for the use of those who are taxed for the maintenance of the public school system. Branches of the public library also would be established in the schools.

GASTRITIS.

Caused by Some Irritant Acting Upon the Mucous Membrane of the Stomach.

Inflammation of the stomach, gastritis, as this unpleasant affliction is variously called, may, like most inflammatory diseases, be acute or chronic in its course. The symptoms of gastritis are more or less fever, weak pulse, loss of appetite, coated tongue, foul breath, bad taste in the mouth, the head aches dullly. There is sensation of weight or distress in the stomach. Gastritis is caused by some irritant acting on the mucous membrane of the stomach, the irritant is often formed in the stomach by the fermentation of indigestible food. Gastritis will never develop if you take regularly Dr. Caldwell's Syrup Pepsin, the guaranteed cure for indigestion, constipation and all diseases arising from stomach troubles. Dr. Caldwell's Syrup Pepsin is an all the year round medicine. Good for the whole family from the smallest infant up. It is the best life insurance. Sold at Hall's and Johnson's drug stores. 50c. and \$1.00 bottles.

WOLVES

Had a Touch of Sea-Sickness on Lake Erie—To Go in Races—The Wolves' Letter.

On Board City of Erie, Sept. 11.—Here we are on board this vessel, and all are having a good time "maybe," that is if you call sea sickness fun. Haynes, alias "Goo Goo Eyes," was the first victim. Then Schlegel, the "Irish Dutchman" with "Happy" Shauck, bringing up the rear.

The tandem racing team Shauck and Fitzgerald has broken up, the former going into the cattle business, as the market is very good around here for young cattle. Haynes is busy prescribing for our sea-sick patients, but they don't seem to get any better, if anything, worse, while Streams and Fitzgerald are enjoying themselves among the ladies.

We are bound for Cleveland and will arrive there about 9 o'clock, being about two hours late, on account of the heaviest storm of the season. We will spend the night in Cleveland, and then go to Detroit as we ride there Thursday and Friday afternoon in the motorcycle races. The tandem team expects to make a good showing, as they added several laurels to their list at the Pan American.

The quintette team won two first at the Stadium and were making a good showing in the 25 miles world championships, when they met with a bad accident on the finish of the 11th mile. None of the riders were seriously injured, but the machine had to be sent to the repair shop.

We will be in Cleveland Sunday and Monday and proceed on our loop to the Wolves' den on Tuesday morning.

THE SEVEN WOLVES.

Mrs. Austin has just come to town.

A Record Breaker.

Corporation Clerk Reynolds says the current year will easily beat all records in the incorporation of electric railway companies. The total number incorporated last year was 33. This year to date 55 such companies have taken out charters. Just now there is a lull in this class of corporation business, no new electric railway company having been incorporated for three weeks.—Columbus Dispatch.

Chemists say that 45 per cent of green wood consists of water. They estimate that it is almost impossible to expel all the water from seasoned lumber, about 10 per cent remaining in highly seasoned woods.

IN STRAIGHTS

J. R. Fitzgibbon's Horse Won the 2:20 Pace at the Muskingum County Fair Thursday.

Zanesville, O., Sept. 13.—The attendance at the county fair yesterday afternoon was the largest ever known.

The races were superb and the crowd enjoyed and appreciated them.

Today is children's day at the fair.

The following is the outcome of the races that were held.

The 2:35 pace:

Archie S., owned by P. J. Hannan.

4, 1, 1, 1.

Westfall, owned by C. W. Bethel, 1.

2, 2, 2.

Lulu C., owned by Frank Philo of Zanesville, 3, 4, 4.

Jim F., owned by James B. Alexander, 3, 4, 4.

Lucifer, owned by James L. Holden of Zanesville, 5, 5, dis., 4.

Time: 29 1/4, 30 1/4, 30 3/4, 31 1/4. Purse \$300.

The 2:20 pace:

Delcator, J. R. Fitzgibbon, Newark.

1, 1, 1.

Annie Wilson, L. W. Pocock, 3, 2, 2.

Estee, C. Meredith, 2, 3, 3.

T. L. M., owned by John W. Forest of Zanesville, 4, 4, 4.

Time: 24 1/4, 24 1/4, 24 1/4. Purse \$300.

One mile run.

Joskosot, W. Roush, 2, 1.

Frank Fellows, owned by E. W. Hammond of Zanesville, 1, 3.

Round O., W. S. Mathews, 3, 2.

Time: 148 1/2. Purse \$150.

After the first heat of the running race Frank Fellows, E. W. Hammond's horse went completely lame in his forefeet. His owner, however, entered him in the second heat. By an agreement reached by the owners the race was decided by giving Joskosot first money and Frank Fellows second money without running the third heat. In the start Billy Audrey, owned by F. C. Whartenby of Mt. Sterling, was stubborn and could not be started in the face. He threw his rider, Frank Boile of this city twice, slightly bruising him.

COACH HOLSTE

Famous Chicago Foot Ball Player Secured to Coach the Denison Team at Granville.

Granville, O., Sept. 13.—Dr. F. W. Shephardson arrived in Granville this morning bringing his son, Whitcomb, who entered college. Mr. Shephardson formerly editor of the Granville Times now a member of the faculty of the Chicago University, said to the Advocate correspondent this morning that he had secured a splendid coach for Denison in the person of Mr. Holste, who was quarterback on the Chicago University team two years ago and coach for the Chicago team last year. The Granville students are delighted over their good fortune in securing Holste. He will arrive in Granville tomorrow.

NO GAS

Postoria is Without Fuel—The Company Stops Making It To Force the Rates Up.

Postoria, O., Sept. 13.—It is unusual for a city the size of Postoria to be without a gas works in active operation, but that is the condition which exists here at the present time, and there is no prospect of immediate resumption. The City Light and Heat company which controls both the fuel and illuminating gas business in this city, have been endeavoring to have the price of fuel gas increased from 50 cents to \$1 per thousand cubic feet for fuel gas, and being unable to do so, suspended the manufacture Tuesday evening, after giving notice to consumers to that effect. The city council refused to be convinced even after the examination of the company's books by experts that gas was being sold at the old rate at a loss and they refused to permit the increase. An injunction was also secured against the company and to avoid further trouble the manufacture of gas was stopped. There is consternation among consumers many saying that they would prefer to pay the new rate than to be without the gas.

While other Ohio towns are experiencing trouble in securing gas in sufficient quantities, Newark is fortunate in having an abundance of natural gas for all purposes.

Tell of Magic Results Brought About in Burning, Itching, Bleeding Skin Troubles by Dr. A. W. Chase's Ointment.

Dr. Chase's Ointment draws more praise from ministers, physicians and lawyers than any other medicine in the world. It is endorsed by every profession.

Extracts from their Letters.

Rev. W. N. Edwards, Baptist minister, 109 Trinity Place, Buffalo, N. Y., writes: "For over fifteen years the itching piles have been a source of constant annoyance to me and frequently, too, the suffering has become intense. At times there was bleeding and the itching and burning was beyond endurance. The results I have derived from Dr. Chase's Ointment have been magical and the benefits lasting. I feel it a duty to fellow sufferers to recommend it."

Rev. J. N. Van Meter, Methodist minister, Albion, Wis., writes: "My wife was terribly afflicted with protruding piles and contemplated a surgical operation when her notice was drawn to Dr. Chase's Ointment, and less than one box effected a cure."

"I then used it for an unsightly and troublesome skin affection, which baffled medical skill for twenty-five years. Dr. Chase's Ointment thoroughly cured it. For piles and skin disease it is worth its weight in gold."

Rev. Chas. Fish, Methodist minister, 193 Dunn Avenue, Toronto, Ont., writes: "Ten years ago eczema began on my ears and spread over my head and hands. During that time I was a great sufferer. I tried many remedies and some of the best physicians—specialists on skin diseases—treated me. The first box of Dr. Chase's Ointment gave much relief and five boxes completely cured me. I think my cure a marvel, and gladly recommend Dr. Chase's Ointment."

Just as good for every form of skin trouble, no matter how long standing. 50 cents a box all dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

FUNERAL.

Of Mrs. George Stewart Thursday Afternoon—A Good Woman Gone to Her Reward.

The funeral of Mrs. Ellen Stewart, the beloved wife of Mr. George Stewart, took place from their home, four miles north of Newark on Thursday afternoon at one o'clock. The service was held at the home, Rev. Mr. Wilkinson of Aberdeen, Miss., officiating, and the interment was made in Cedar Hill cemetery. The pall bearers were Messrs. John Kirkpatrick, Frank Elliott, W. J. Stewart, S. Stewart, Fred Wilson and Harry Toothaker—all nephews of the deceased. Mrs. Stewart was a model wife and mother; a woman who was devoted to the best interests of her family, as well as the community at large. The family and the world suffer a serious loss in her death, and the utmost sympathy will go out to the sorrowing husband and children thus sadly bereft.

FIVE KILLED

Three Explosions Occurred in a Powder Mill at Oakland, N. J., Caused by a Spark.

New York, Sept. 13.—Three explosions occurred in the works of the American Schults Powder company at Oakland, N. J. Five men were killed. They are: William Titus, engineer in charge of the boiler; Arthur Curry, driver; John Dupont, employed at Isaacs' hotel; Richard Van Plarcan, mason; Harrison Wable, driver. Bartholomew Burns and Andrew Lessinger were fatally injured and five others were less seriously injured. The first explosion was that of the boiler. Following almost immediately were two explosions, one in the magazine and the other in the mixing house. The latter is supposed to have been caused by a spark.

Three Negroes Lynched. Louisville, Sept. 13.—News has been received here that a mob of negroes broke into the jail at Wickliffe, Ky., and lynched three negroes, Frank Howard, Sam Feed and Ernest Harrison. They hanged the men to a cross beam in John McCauley's mill. The men lynched were charged with having waylaid, murdered and robbed an old and respected negro, Wash Thomas, Saturday night. The murderers confessed their crime to the mob.

ELECTRIC AFFAIRS

Something of Utica's Projected Line and Some of the Objections Offered To It.

(Utica Herald.)

J. M. Ickes, projector was in town Friday on business connected with the securing of right-of-way permits for the electric railway. The results of the visit were not entirely satisfactory to him, according to information that has reached us.

Before the county commissioners can grant the use of a public highway it is said that the parties asking for a franchise must have the written permission of the owners of at least two-thirds of the lands abutting on the road. The necessary number of land holders along this route have not yet yielded their consent.

There is a difference of opinion as to the desirability of an electric road through Utica. It is generally believed that frequent and cheap communication with Newark and Mt. Vernon would injure the trade of Utica merchants in certain lines to some extent, out perhaps the public outside the tradesmen would be benefited by the cheaper fares and the ability to go to and from the county seats at almost any hour. Besides, business men of the cities might be induced to reside in the village. The inter-urban roads lately constructed over the country are being equipped for transporting freight as well as passengers, and such a road through here might mean a lowering of freight rates and possibly enable a farmer to receive goods, and ship products from his very door.

One reason that some farmers hesitate about consenting to the construction of a railway alongside their farms is a possibility of their losing the use of some of the land they have been permitted to reap, the benefits from. From time to time, in rebuilding fences the highway has been encroached upon, without complaint having been raised, until the road in some stretches is much narrower than the law demands. An effect of the building of one electric railroad along the highway is illustrated by the following paragraph from the Pataskala Standard:

"The Columbus Newark & Buckeye Lake Electric line is pushing things now in the neighborhood of Kirtersville, Etina and Reynoldsburg. Farmers along this route begin to realize the reality of the thing, as many are compelled to move their fences back where they belong. This line, when completed will succeed in widening the old pike about all the way from Columbus to Hebron, as encroachments have been made from time to time by property owners along the road until the original width was greatly reduced. The new territory thus gained will allow the operation of the line without interfering materially with the public highway proper."

CROPS

Of United States as Shown in General Summary of Climate and Crop Bulletin.

The Climate and Crop Bulletin for the week ending September 9 gives the appending general summary:

The weather conditions of the week ending September 9, 1901, have been generally favorable for gathering and maturing late crops in nearly all sections east of the Rocky Mountains and on the Pacific slope. Rains retarded work in Nebraska and South Dakota and caused some damage to crops in the first named state, while drought conditions still continue in portions of Texas and Oklahoma, and rain is needed in the central valleys. Light frosts were quite general in the Rocky Mountain region and in Michigan, with little or no damage, and snow occurred in Montana. Conditions have been particularly favorable in the South Atlantic and Gulf districts, which have in four previous weeks experienced unusual and heavy precipitation.

Reports from the principal corn producing states west of the Mississippi river indicate that late corn is maturing rapidly and that cutting is in active progress in all sections, being nearly completed in some localities. The late crop continues to improve in Nebraska and is filling better than anticipated. In Iowa the bulk of the late planted fields will be beyond danger from frost by September 20, in the dry section of the state about one-half the acreage being already in shock, except portions of northern districts. In Missouri the crop is drying up. Generally favorable reports are received from states east of the Mississippi river, with the exception of Illinois, where corn has deteriorated slightly and its maturity hastened by dry weather. Cutting is in progress in the northerly sections under very favorable conditions.

The weather of the past week has been more favorable for cotton. This staple is opening rapidly in all sections and picking is in general progress. Complaints of rust and shedding still continue, however, from the eastern and central districts of the cotton belt, and the top crop is short in Georgia and Florida, while reports of damage by boll worm are received from Mississippi and Louisiana. No improvement is noted in the late crop in Texas, it having stopped growing and blooming in the drought-stricken districts, and is shedding and rusting badly where rain fell.

Favorable reports regarding tobacco continue from nearly all districts. Cutting and housing are in general progress and a satisfactory crop is indicated, although tobacco is light in North Carolina and Wisconsin and curing very badly in Maryland.

No improvement in the condition of apples is reported. This fruit is scarce in nearly all sections and prospects for a poor yield are indicated, but in portions are Arkansas and West Virginia a good crop is generally promised. In Missouri and Indiana apples continue dropping and many trees are dying in the first named state.

Owing to dry soil conditions, plowing has been retarded in Michigan, Wisconsin, Illinois, Missouri, Oklahoma and portions of Kansas and the states of the Ohio valley; elsewhere this work has progressed rapidly. Some wheat has been sown in Missouri, but the soil is too dry for germination, and seeding has begun in other districts where conditions were favorable.

About 1000 people came on the Pan Handle at 8:20 this morning from Newcomertown, and spent the day at Idlewild Park. A fine band accompanied them.

The railway returns of the United Kingdom for 1900 show that during the year the number of passengers carried, exclusive of season-ticket holders, was 1,142,276,668, an increase of about thirty-five and a half millions over 1899. The amount of goods conveyed shows an increase of over thirteen and a half million tons.

SYSTEM IN STUDY

It is Being Urged by Superintendent and Principals of the Columbus Public Schools.

A good deal has been said about the overcrowding of school children with study, but the high officers of the Columbus schools evidently believe that there is too much laxity in study and that the pupils do not accomplish as much as they should for this reason. They believe that perfect system should be observed in the hours of study, and to this end the following circular is being sent out to parents by the various principals.

1. Pupils should study from two to four hours a day at home. To do this requires that regular hours should be set apart for this work, and nothing allowed to interfere. If parents can't control their children to this extent they need not be surprised if they fail.

2. Pupils should be at school every day and on time. Absence and tardiness beget indifference, and indifference leads to failure.

3. Pupils should be at school every hour of every day, and parents should not ask to have pupils excused before the hour of closing.

4. Social events should not be allowed to interfere with school work, but ought to be deferred till after the week's work in school is done. Too many parties in December means joyous tears in June.

5. If a pupil must be absent the parent should, in writing an excuse, state specifically the cause of such absence. In case of continued absence, the principal should be informed by postal card as early as possible.

6. Parents should keep close watch of their children's work from the first day by personal visits or otherwise. Teachers are always glad to co-operate with parents in whatever is best for the pupils, and are ready to give information concerning the progress of pupils whenever parents request it.

Attached to the circular is a detachable blank for a reply from the parent, room being left for any remarks the parent may wish to make.

TO BOOM BUSINESS.

One of the leading book publishers of New York has asserted that enormous increase in the sales of new publications is due more to the new method of display advertising in the newspapers than to the favorable reviews of critics or to any other cause. He says that the elaborate art posters never paid, but that the "fetching" advertisements in the newspapers inspire people to buy.

DOCTOR IN THE TOILS

An Arrest at Chicago That May Bring Developments.

HELD BY ORDER OF BUFFALO POLICE

Alleged to Have Been Seen With Emma Goldman at Divers Times and Places—Herr Most Jailed at New York For a Flery Editorial. Crusade Against Anarchists.

Chicago, Sept. 13.—A telegram was received from the chief of police of Buffalo asking the Chicago police to arrest a man described as above the medium height, well dressed, dark complexion and a physician by profession. A man answering this description was arrested a few hours later near Twelfth street and Ogden avenue. He is said to have admitted to the police that he was in Buffalo at the time President McKinley was shot and attended the exposition that afternoon. He asserts that he does not know Isaac, but that he is acquainted with Miss Goldman. The latter admitted that she knew the man but refused to give his name. The man says that he intended to leave for the west the day McKinley was shot, but decided to wait until he learned what developments there were in the matter. The prisoner is T. Saylim of Buffalo. Evidence of the allegations, held to implicate him was not vouchsafed except for the information that the man had been much in Emma Goldman's company during the time she spent in Buffalo and Rochester in the months of August and September.

Herr Most Jailed.

New York, Sept. 13.—Johann Most, the most widely known of New York anarchists and editor of Freiheit, the organ of the anarchists, was arrested by central office detectives Knapp and Fernelson. The arrest was made in a saloon, over which are the offices of the newspaper. Herr Most objected volubly to the arrest, but to no purpose, and he was locked up at police headquarters as "a suspicious person." Captain Titus refused to allow Most to see any one or to make a statement, the captain declaring he would not allow the prisoner to pass as a martyr before the public. The complaint against Most, which covers five and a half typewritten pages, is based on and quotes in full editorial material which Most printed in Freiheit on Sept. 7. The editorial reads in part: "The greatest of all follies in the world is the belief that there can be a crime of any sort against despots and their accomplices. Such a belief is in itself a crime. Despots are outlaws; they are in human shape what the tiger is among beasts; to spare them is a crime. As despots make use of everything, treachery, poison, murder, etc., so everything should be employed against them."

Emma May Get Off.

Buffalo, Sept. 13.—The district attorney here announced publicly Thursday evening that he had no evidence against Emma Goldman, and that unless some turned up no requisition upon the state of Illinois would be made for her. This does not mean that the bottom has dropped out of the conspiracy theory. It simply means that no evidence has yet been secured to connect her with the crime. If she is released she will be kept under the closest surveillance, and it will be easy for the authorities to place their hands upon her if she is wanted later. The secret service will trace Czolgosz's whereabouts back step by step. One of the things which is desired is a complete report of the lectures the president's assailant said inspired him to commit the deed.

Maggio Bound Over.

Santa Fe, Sept. 13.—Antonio Maggio, the alleged anarchist, has been taken from Silver City to Albuquerque. He was cross-examined but refused to divulge anything upon the subject of the president's assassination, although witnesses were present to testify that he repeatedly predicted the president would be assassinated before Oct. 1. He was bound over for hearing on the charge of conspiracy to murder.

Virginia Suffrage Plan.

Richmond, Sept. 13.—A meeting of the Democratic members of the constitutional convention was held here, when a substitute for Senator Daniel's suffrage plan was presented by Delegate Thom of Norfolk. The substitute has the support of the majority of the committee. It was read and a committee named to confer with Chairman Daniel and the minority to see if an agreement can not be reached. The most radical difference between the Daniel plan and the substitute is that the former requires all voters to pay the capitation tax of \$1.50, while the substitute exempts all who have done military duty from that.

Popular Pewter.

The popularity of pewter is extraordinary. Every bride is clamoring for it when asked what she would like for a present, and secondhand shops are being ransacked for specimens. At a wedding the other day no less than 50 pewter offerings were made, some of which had been unearthed in Germany and were absolutely beautiful.—Lady's Pictorial.

SHAFFER

College Graduate and Preacher—Regarded as a Man of Good Purposes, Poor Judgment.

Columbus, O., Sept. 13.—Secretary Bishop of the state board of arbitration, returned home yesterday from Pittsburg where he was watching the sheet steel makers' strike. He says the condition is unchanged and there

THEODORE J. SHAFFER.

being no proposition from either side for a conference no settlement is in sight, though Mr. Bishop believes that another getting together would end it.

The Labor World, recognized as an organ of working men in Pittsburg, in which Pat Dolan, well known here for his connection with the coal miners' organization, is a director, is out this week with a long article on the first page giving 25 reasons why Shaffer should be impeached. With so much dissension among the laborers' organizations, little less than a failure of the strike can now result.

Shaffer is a college graduate and a preacher. He is an orator of acknowledged ability. He earned money to educate himself in the steel mills, and for a time was engaged in preaching, but his health failed and he returned to the mills. He is looked upon as a man of good purposes, but poor judgment.

SPECIAL GIVEN RIGHT OF WAY.

Cleveland, O., Sept. 13.—Senator M. A. Hanna, Colonel Myron T. Herrick, and the President's sisters, Mrs. Barber and Mrs. Duncan, left for Buffalo on a special train over the Lake Shore at 5:20 a. m. today. Supt. A. H. Smith of the Lake Shore was also aboard. The train was given the absolute right of way, and was expected to make the run of 133 miles in less than four hours. The special, which was drawn by engine 128, with Engineer W. A. Roof at the throttle, consisted of four cars, the private cars of Colonel Herrick and Supt. Smith and a baggage car and coach to steady the train during the lightning run to Buffalo.

"There's nothing allowed to get in your way," Engineer Roof was told as the train pulled out. "Go as fast as you can."

HAS CZOLGOSZ'S INSTRUCTIONS.

SUPT. BULL ALSO HAS A COPY OF ANARCHIST PLATFORM.

It Declares Force is Only Means of Socialistic Triumph, All Peaceful Methods Ineffectual.

Buffalo, Sept. 13.—The Courier says Supt. Bull now has in his possession the code of instructions imparted to the selected assassin, Czolgosz.

The platform of the free society was also added to the cumulative evidence of the anarchist conspiracy yesterday. This document binds its members together to advocate and work for the destruction of the existing social order and continues:

"As in former time no privileged class ever relinquished its tyranny, no more can we take it for granted that the capitalists of the present day will forego their privileges and their authority without compulsion. It is, therefore, self evident that the fight of the proletariat against the upper and the middle classes must be of a violent character, and that mere wage conflicts can never lead to the goal.

"We show by numerous illustrations that all attempts which have been made in the past to do away with the existing monstrous social system through peaceful means—for example the ballot box—have been utterly useless and will be so in the future.

"We know, therefore, that the ruling class will not voluntarily relinquish its prerogatives and will make no concessions to us. Under all these circumstances there is only one remedy left—Force.

"Our platform is simple and divided as follows:

"1—Destruction of existing class domination through inexorable revolution and international activity.

"2—The building of a free society on communistic organizations or productions.

"3—Free exchange of equivalent products through the productive organization without jobbing and profit making.

"4—Organization of the educational system upon non-religious and a scientific and an equal basis for both sexes.

"5—Equal rights for all without distinction of sex or race.

"6—The regulation of public affairs through agreement between the independent communes and confederacies.

Mr. Wolsey Weint of Amsterdam, Tex., a cousin of Mr. Warren Weint, stopped in Newark over night on his way to New York. Mr. Weint is the man to whom was sent the contribution from Newark to the Galveston flood sufferers.

Mr. Charles Sasser, son of William Sasser of 11 Jefferson street, has gone to the St. Francis hospital to have his hand amputated. Mr. William Sasser, his father, will go over Saturday morning to be with his son. This will be the third operation. The operation will be performed tomorrow morning.

MURDERED

The Man Who Wanted Him to Assassinate Chamberlain—Startling Plot Unearthed.

New York, Sept. 13.—A London cablegram to the World says: "London has been startled by evidence of a conspiracy to kill Joseph Chamberlain, the Colonial Secretary. Herman Jung, an old jeweler of Clerkenwell, who has been widely known for his socialistic affiliations, was murdered ten days ago.

"Martial Faugeron, a Frenchman, who was charged today at Clerkenwell Police Court with the murder of Jung and committed for trial, told a remarkable story of the plot. Faugeron said he had been the recipient of small loans from Jung. The day of the murder Jung summoned him to his shop, where they discussed the misery caused by the South African War, for which Jung declared, Mr. Chamberlain was responsible, and Jung told Faugeron that if he would kill Mr. Chamberlain he (Jung) through intermediaries, would guarantee him a fortune, tendering him £10 to buy good clothes in order to enable him to approach his victim.

Faugeron says he refused, whereupon Jung declared he should not leave the shop alive, and picking up a heavy iron, rushed on Faugeron and felled him to the ground. Faugeron in self-defense drew a knife and stabbed his assailant in the neck.

"Jung was a noted Socialist, the last survivor of the group of which Carl Marx was a member. They formed the Red Internationale in London in 1864. In spite of Jung's reputation of earlier years of being a violent red, personally he was a quiet and skillful organizer and was never specially connected with any of the acts of violence in which his reputed disciples were involved.

BANKING LAW CHANGES.

Toledo, O., Sept. 13.—At a meeting of the subcommittee of the Ohio Bankers' Association held at the Boody House in this city the following were present: M. H. Wilson of Cleveland, A. E. Rice of Fremont, S. F. Griffith of Cincinnati, W. A. Graham of Sidney, and David Robinson of this city.

Their report which is to be made, suggests important changes in Ohio banking laws. It is proposed that in cities of over 100,000 people capital of banks shall be at least \$200,000, this to grade down proportionately to population. Villages of less than 1000 are not to have a bank. A State Banking Department is to be provided and be under the direction of a State Commissioner to be appointed by the governor. Such a legislative act as this is designed to protect depositors from unsafe and wildcat banking concerns.

Several new and very important clauses are to be asked for in connection with savings banks, merchants and trust companies. The report will be submitted to the annual session of the association, which is to be held in Cleveland October 23 and 24.

Misuse of Mails.

Ada, O., Sept. 13.—United States Marshal Ben J. J. Wagner of Toledo, came here, and on a warrant sworn out by Postoffice Inspector J. F. Oldfield, of Cincinnati, arrested Douglas Pugh, charging a violation of the postal laws in writing threatening and wrongful letters to several persons in this section, mostly women. He was taken to Toledo, where a hearing will be had Saturday before United States Commissioner B. F. Brough. Mr. Pugh is alleged to be the person who has been destroying rural mail boxes in this section during the past year.

Mother Disowns Her.

Rochester, N. Y., Sept. 13.—Mrs. Goldman, mother of Emma Goldman, was interviewed concerning her daughter's arrest. She said:

"Emma Goldman is a worthless creature. I disown her. I am nearly 60 years old, and I don't propose at this age to be disgraced longer by her crazy ideas."

"How long is it since your daughter has been home?"

"This is not her home. I don't have anything to do with her. She can't stop under the same roof with me, not for a single night."

"But she was in Rochester a short time ago?"

"Yes, but she didn't stop at my house."

The grease in Cod Liver Oil is worse than useless. It deranges the stomach and hinders digestion.

That's the reason Hagee's Cordial of Cod Liver Oil with Hypophosphites of Lime and Soda is so much better than the oil itself. The grease and the taste have been eliminated—the active principles only being retained and concentrated. You get all the good without any of the bad. The stomach assimilates it, the blood absorbs it, the nerves feed on it.

Take Hagee's Cordial in the summer and have an overcoat of flesh when winter comes.

Ecuador Neutral.
Washington, Sept. 13.—The Colombian legation received a long cablegram from the state department at Bogota, the Colombian capital, reporting that everything was quiet there and announcing a lack of authentic news regarding the bombardment of Rio Hachu by the Venezuelan fleet. The legation has received a letter from the Colombian minister at Quito, Ecuador, dated Aug. 23, saying that the Ecuador government has given him the most friendly assurances of an intention to maintain strict neutrality toward Colombia.

Pope's Sympathy.
Washington, Sept. 13.—A delayed cablegram to Cardinal Martinelli from Cardinal Rampolla, secretary of state to Pope Leo, dated Sept. 7, says: "The holy father has learned with great sorrow the attempt to assassinate the president of the United States. Your eminence will convey to Mr. McKinley the expression of his holiness' sympathy and regard for his person, assuring him that his holiness excommunicates with all the power of his soul the horrible crime, and with equal energy prays for the president's speedy recovery."

TO START THE MILLS

Whether Settlement Is Effected With Strikers or Not.

DETERMINATION OF THE COMPANIES.

Host of Peace Rumors Dissipated by the President of the Amalgamated, Who Claims There Are No New Developments—Steel Trust to Entertain No Further Propositions.

Pittsburg, Sept. 13.—The absence of President Shaffer from Amalgamated headquarters lent color to the report that a settlement had been reached. By many Mr. Shaffer was supposed to be in New York in conference with President Schwab, and others were convinced that he was in conference with the American tin plate officials, discussing a proposition to call the strike off as far as that company was concerned. When President Shaffer finally appeared at headquarters he dispelled all hopes by saying there was no change in the situation. Immediately after arriving at the office Mr. Shaffer called the national officers to his room for a conference, which lasted 40 minutes. It was impossible to learn what the talk was about, as none of the participants would talk.

Mr. Shaffer said he had not heard of any developments, and repeated the assertion that he was going home to rest and would not leave the city. It was said at Amalgamated headquarters that the steel combine had refused to entertain any further propositions of settlement for the Amalgamated Association. This would seem to strengthen the report from New York that the situation is now in just the shape it was before the first conference at Cleveland, in the hands of the constituent companies for settlement; that Mr. Schwab and Mr. Morgan have turned the matter over to the local officials, and that if anything is done it must be done by them and through the officers in New York.

The officers of the American Steel Hoop company, the American Tin Plate company and the American Sheet Steel company are under orders now to start their mills either by opening them nonunion or effecting a settlement with the strikers. None of the three who were served with eviction notices were more than three months in arrears in their rent, and when the constable served the notices all tendered their rent to date, but on instructions from the company the constable refused to accept the money.

The leases for the 50 houses owned by the company contain two unusual clauses. One provides that when the tenant ceases to be an employee of the company he shall peacefully give up possession of the premises. The other provides that, on the tenant refusing to work longer for the company, information may be made before an alderman and the tenant ejected.

With drawn revolvers, two officers sat on the top seat of a cab and escorted six nonunion men into the Monongahela steel plant. A great crowd of strikers and sympathizers pursued the cab to and from the mill, and when the return trip was begun both officers once more drew their guns, and at Fourteenth and Carson streets one shot was fired from the cab. Fortunately no one was hit. The streets in the vicinity of the Monongahela plant are now virtually in a state of siege.

Bryan's Views.
Lincoln, Neb., Sept. 13.—In a letter to George W. Harris, president of the Bryan Traveling Men's club of St. Louis, made public, W. J. Bryan outlines what he believes will be the leading political issues of 1904. Mr. Bryan insists the silver question is not settled, that the fight against trusts must continue, together with opposition to government by injunction, and finally that the Kansas City platform bids fair to be a sound declaration of Democratic principles.

Was Deported.
Tampa, Fla., Sept. 13.—Angel Rodriguez, one of the leaders of the Resistance union of cigarmakers, appeared in this city Wednesday and it is said made an effort to check out of the banks a sum, supposed to be \$16,000, belonging to the union, for the use of the union. For some hours he was not molested, but during the day he was halted by a single citizen and since then has not been seen. The supposition is that he has been deported.

Struck Oil.
Charleston, S. C., Sept. 13.—The town of Lake City, Williamsburg county, is greatly excited because an artesian well borer is reported to have struck oil and coal in quantities at a depth of 65 feet. What is believed to be anthracite coal, in pieces as large as guinea eggs, was found, and the fluid accompanying is said to "smell and burn exactly like kerosene."

Colombian Situation Serious.
City of Mexico, Sept. 13.—Americans proceeding from South America state that the Colombian situation is far worse than reported by the papers. They say that probably 25,000 men have been killed since the beginning of the rebellion. One man claims to have seen 1,000 dead bodies piled in heaps and consumed by burning.

Mexican War Veterans.
Cleveland, Sept. 13.—The Mexican War Veterans' association listened to reports about pensions and passed general resolutions and a special resolution of thanksgiving upon the prospect of President McKinley's recovery. Of the 110,000 veterans of the Mexican war only 5,000 now survive. Their average age is 79 years.

THE PRESIDENT

(Continued from Page 1.)

News from the president's chamber, causing the greatest alarm. Early Thursday evening the distinguished patient experienced a turn for the worse. He failed to rally and as the night wore on he became critically ill. The food taken during the day had not agreed with the president. It had not been disposed of, and the rise in his pulse was attributed to that fact. It may be stated quite positively that the consulting physicians did not believe that the failure to digest the food was due to the condition of the wounds in the sides of the stomach, which were believed to be practically healed, and so pronounced by Dr. McCurney and his assistants. The fact that the food would not agree with the patient could not have been anticipated, so it was stated, but as soon as it was found that it had not, the administration of food by the mouth was discontinued. The problem which confronted the physicians was to dispose of this undigested food in the stomach. The fatigue of the patient noted in the afternoon bulletin continued during the night, and several times the president murmured, "I am so tired, I am so tired." Dr. Charles D. Stockton, who has a fine reputation as a general practitioner here, was called in at the evening conference. The problem was one for the physicians rather than the surgeons, and the advice and counsel of Dr. Stockton was considered advisable.

At midnight the physicians issued a bulletin declaring that all unfavorable symptoms had disappeared, but the pulse at that hour was considerably above normal. The bowels finally yielded to treatment.

Heart Failed Him.
The decreased rapidity of the pulse from 128 to 120, which followed the bowel movement, was exceedingly gratifying. The physicians are really alarmed about the president's heart. The action of the bowels was produced by the administration of calomel and oil.

President McKinley experienced a sinking spell shortly after 2 a. m. The physicians administered restoratives to him with the hope of reviving him. A general call was sent out to the physicians and the members of the cabinet now in the city. Dr. Park reached the house at 2:50 and shortly after him came Secretaries Hitchcock and Wilson. The press was authorized to say that President McKinley was critically ill.

At 3 o'clock all of the physicians were gathered at the bedside of the president. It was stated that digitalis was being administered to the president. Several messengers were hurried from the house. It was understood that they carried dispatches to the absent members of the cabinet and the kin of the president. Additional lights burn for those in the Milburn home and the household is astir. Beyond the statement that the president was critically ill no further announcement was authorized, but it was manifest that the wounded president faced a

Grave and Serious Crisis.
Alarm could be read in the actions of those to whose nursing and care he was committed. The scene about the house was a dramatic one. The following was issued by the president's physicians at 2:50 a. m. "The president's condition is very serious, and gives rise to the gravest apprehension. His bowels have moved well, but his heart does not respond properly to stimulation. He is conscious. The skin is warm and the pulse small at regular beats, easily compressible, and 120; respiration 30, temperature 100."

At 2:35 a. m. the president was so weak that he apparently did not suffer much. Strychnine, digitalis and other powerful heart stimulants did not produce effect, and the worst is feared. His death might occur any time from heart exhaustion. Mrs. McKinley had not yet been notified of the change for the worse.

At 3:55 a. m. the physicians were still assembled at the bedside of the president. They were administering digitalis and strychnine. They looked for a rally, but up to that time no hope came from them to those who were waiting on the outside.

At 4 o'clock no word of encouragement came from the Milburn house. Drs. Mann and Myer left the house at 4 o'clock. The latter said: "The president is in better condition than he was an hour ago. We have not given up hope. He has rallied somewhat and we are going home." Dr. Mann also said that the president rallied, but both physicians declined to go into details concerning the character of the heart stimulants administered or the cause of the collapse.

Telegrams were forwarded to Vice President Roosevelt notifying him of the sudden change for the worse in the president's condition and the fears that were entertained.

At 4:15 a. m.—The rally at 4 o'clock was very slight. At 4:15 Secretary Cortelyou and Mr. Milburn emerged from the house and walked up the sidewalk inside the roped enclosure. Secretary Cortelyou said the president was resting, that four physicians were in the sick chamber, but he offered little in the way of encouragement.

At 4:25 Secretary Wilson stepped out of the house. "The president is a little better," said he. "His heart action and his circulation are both better. I have not given up hope."

"Is the president conscious?" "Perfectly so."

"Does he realize his critical condition?" "I do not know as to that."

In addition to the other restoratives

saline solution was used shortly after the president's sinking spell began. Secretary Cortelyou sent the following telegram to Colonel Montgomery, in charge of the telegraph office at the White House: "The president is critically ill. Notify the cabinet. The president's condition has grown worse during the night and he is extremely weak."

Demented Farmer's Deed.
Marquette, Mich., Sept. 13.—Armed with a shotgun, declaring he would shoot the first person who attempted interference, a farmer named Lupton, living near Germfask, held at bay a crowd of neighbors while the great bulk of his property went up in smoke. Lupton hauled practically everything of value he possessed to his big barn, which contained about 100 tons of hay, besides vehicles and the like, and after the horses and cattle were also locked in applied a match, next setting fire to his dwelling house. When the barn and house had been practically consumed Lupton fled to the woods, and was later found by a searching party, concealed in a haystack in a nearby field. He has a wife and family. It is believed that he is demented.

Governor Nash's Announcement.
Cleveland, Sept. 13.—Governor Nash issued the following announcement: "I wish to announce to the people of Ohio that I will set apart Sunday, Sept. 22, as a day for thanksgiving and rejoicing. I will prepare a proclamation within the next two or three days calling upon the people of Ohio, the home of our beloved president, to send up their thanks to the Almighty Ruler for the life of President McKinley."

Disastrous Freight Wreck.
St. Paul, Sept. 13.—A disastrous freight wreck occurred on the Great Northern railroad near the Cascade tunnel in Washington. The cars jumped the track and piled up in a heap. Fire ensued and 31 cars loaded with merchandise were totally destroyed. The engineer, Frank Fahlgren, and the fireman, John Campbell, were unable to escape from the engine and were killed. Conductor Nordquest was injured.

Powers Support Spain.
London, Sept. 13.—A dispatch from Tangier says the Austrian, British, French, German and Russian representatives have sent a joint note to the sultan of Morocco supporting Spain's demands for the release of the Moorish tribes, compensation for their capture, and the punishment of the tribes.

Sentence Commuted.
Frankfort, Ky., Sept. 13.—Governor Deekham commuted to life imprisonment the death sentence of Holly Strutton, who was to have been hanged at Lawrenceburg for the murder of Newton Searcy.

Prison Officials Dismissed.
Indianapolis, Sept. 13.—Harry L. Henderson, chaplain and state agent, and Dr. A. L. Spinning, physician at the state's prison at Michigan City, have resigned and are no longer connected with the institution. They resigned at the request of Warden Shidder, who declines to make public the reason, except to say that he asked for their resignations for the betterment of the prison. Warden Shidder tendered his resignation to Governor Durbine a few days ago and it has been accepted.

Girl Pupils Arrested.
St. Petersburg, Sept. 13.—The pupils of a young ladies' school near Count Tolstoy's residence at Yasnaya, with their teacher and other young persons of the neighborhood, called upon him and presented the arrest with flowers. They have been dismissed and their teacher has been dismissed.

RECEPTION

IN HONOR OF NEW PRESIDENT
OF DENISON.

Remarks Made by Edward Kibler and
Geo. B. Sprague of Newark and
Several Others.

Granville, O., Sept. 13.—Thursday night a reception was given in the Baptist church in Granville for the purpose of formally welcoming Dr. L. W. Hunt, the new President of Denison University to his new field of labor. Notwithstanding the inclemency of the evening, quite a rain being in progress, the large congregation room of the church was comfortably filled with the members of the Board of Trustees, the faculty and students and citizens of Granville and friends of the university over the state.

During the assembling of the audience a fine organ voluntary was rendered by Miss Roberts upon the magnificent organ belonging to the church. Prayer was offered by Dr. Lasher of Cincinnati, which was followed by Dr. H. T. Colby of Dayton who was the chairman, introducing Dr. Hunt to the audience as the new President selected by the Board of Trustees to manage the affairs and look after the future interests of Denison University.

Dr. Hunt then in a few happy remarks, accepted the Presidency and indicated his willingness to follow in the footsteps of his predecessors in the noble work set before him.

Prof. J. L. Gilpatrick then made an address of welcome on behalf of the members of the University faculty, cordially welcoming the new President to his new work.

A fine vocal solo was then rendered by Mr. H. M. Jackson of this place, which was much appreciated by the audience.

Mr. E. M. Thresher of Dayton, the delivered an interesting address on behalf of the members of the Board of Trustees of the University.

Hon. Harvey Keeler of Cleveland.

Prosecuting Attorney of Cuyahoga county, then made some stirring remarks on behalf of the alumni of the University.

Mrs. Hurdley then rendered a fine vocal solo.

Judge J. D. Jones then made an appropriate address of welcome on behalf of the citizens of Granville.

Edward Kibler, on behalf of the county, and President George B. Sprague on behalf of the Board of Trade of Newark, delivered addresses of welcome.

An informal reception followed, the new President being introduced to all present, and an evening of rare social enjoyment was had.

WALTER HAINES

Was Married at Terre Haute, Ind., to
Miss Josephine Richmond—Will
Live in Indiana.

Cards have been received here announcing the marriage of Mr. Walter Haines to Miss Josephine Richmond, which occurred in Terre Haute, Ind., last week. The groom is a son of Mr. J. H. Haines, clerk in the B. & O. round house, this city, and was born and raised in Newark. He went to Terre Haute about a year ago to take the night foremanship in the North Baltimore Glass Works at that place, under General Manager Samuelson, formerly of this city. The bride is a charming young lady, daughter of one of the leading merchants of Terre Haute. The happy couple have the best wishes of all their Newark friends.

BENNINGTON GRANGE.

The members of Bennington Grange will hold their annual fair on September 16th in Rice's grove near Appleton and all are cordially invited to attend, bringing well filled baskets, that the day may be spent together in the grove. The fair is free to all exhibitors. Don't forget the date and arrange to spend the day at that place. —Johnstown Independent.

INDIANAPOLIS

Gets the Next Convention—Col. Rosebraugh Returns From the Meeting Held at Buffalo.

Colonel Cliff Rosebraugh, delegate from Licking camp, Spanish American War Veterans, of this city, returned home from Buffalo, N. Y., Thursday night, where he had been representing the camp at the national convention of the association.

Licking camp, through National Delegate Rosebraugh, wishes to thank Lemert Post, G. A. R., the Union Veteran Legion and Board of Trade of the city of Newark, and George R. Geiger, Adjutant General of the State of Ohio, for their endorsement of the camp's invitation to the National Association of Spanish American War Veterans to hold the encampment under canvas at the permanent camp grounds at Newark next year. The invitation was received and duly considered, but Indianapolis was named for the next encampment. A resolution was passed to consider Newark's claim next year at Indianapolis.

CLAM BAKE

Will be Enjoyed by Rownd Islanders at Buckeye Lake on Wednesday, October 9.

The directors of the Rownd Island club met Thursday night and decided to combine the next outings scheduled for September 19 and October 9, into one big affair to be held on October 9. It will be a clam bake with all the trimmings and the officers of the club anticipate a big attendance.

It is desired that all who will go secure tickets before October 1 from President A. T. Speer, Secretary W. V. Jordan, Treasurer A. C. Hatch or General Manager W. C. Wells. Tickets for members of the club and guests will be prepared.

HORSE'S KICK

TORE SAMUEL IMHOFF'S NOSE NEARLY OFF.

Blow Rendered Him Unconscious—The Young Man Taken to His Home on Second Street.

Samuel Imhoff, Jr., met with a bad accident this morning while loading ice at the ice plant, into his wagon. The reins, dropped and he stopped to pick them up, when one of the horses in the team kicked him squarely in the face. The blow tore his nose nearly from his face, and rendered him unconscious.

He was taken to Dr. D. M. Smith's office and the injury attended to, after which he was taken to his home on South Second street, where he is resting very well.

NARROW ESCAPE

From Fatal Injury of Sheriff Alexander on the Zanesville Race Track Thursday.

Sheriff James B. Alexander of Muskingum county, met with an appalling accident at 4:30 o'clock Thursday afternoon at Zanesville, during the races at the fair.

Mr. Alexander was driving his horse "Jim F." in the 2:35 pace. He was coming up the stretch in "scoring" when he collided with the sulky drawn by Dr. J. L. Holden's horse. He was thrown over the head of the horse and fell with great force to the track.

The horse ran over him and around the track and nearly ran over him the second time.

It was some time before the injured man recovered consciousness. Mr. Alexander is well known in Newark.

The extent of his injuries is, two fractures of the right fore arm inside of five inches, a bad cut above the right eye, a very badly bruised right leg, and several scratches on the forehead.

Mrs. Austin has just come to town.

SUNDAY SCHOOLS.

The County Executive Committee Urges that the Fall Conventions Be Planned Without Delay.

The County Sunday School Executive Committee urges that fall conventions be planned at once. Some townships have already held conventions and the best reports reach us. The president of the one township's association writes: "We have had a grand meeting. The county workers were present and helped us very much. Thank you for sending us such good help." These words of appreciation are very encouraging to our county officers and make them feel that their work is not in vain.

As the days of autumn come, let us turn our attention to some definite work in our school. Holding conventions, reading papers, delivering addresses, will not accomplish anything. It remains for our workers to go home and put into practice the things brought out in the convention. There are many things to be done, that we scarcely know where to begin, but let us not fail to do something to increase the efficiency of our school. A Home department will extend the influence of the school. A normal class will afford a profitable winter's work and furnish a good supply of workers for the future needs of your church and school.

A teachers' meeting will prove most helpful to your workers. Do not restrict it to your teachers, but admit all workers who would like to come. A cradle roll will draw to your school many who are not interested in church work. Every school can do something in one or more of these lines. Do not fail to observe Rally Day, the last Sunday in September or on some other date. Programs free.
